SCHEDULE V1 – VALDEZ DISTRICT RESIDENTIAL SERVICE

AVAILABILITY

Available to consumers of the Cooperative for all home uses subject to its established rules and regulations. Service under this schedule is limited to individual motors up to and including 10 horsepower. This schedule is available only to consumers use the Cooperative's power as the sole source of power.

TYPE OF SERVICE

Single phase, 60 hertz, at the Cooperative's standard voltages.

APPLICATION

Service for all home purposes in single occupancy residences and individual apartments when such service is supplied individually through one meter.

RATES

Customer charge per month @ \$12.00

Energy charges:

All Energy @ 6.78¢ per KWH

COST OF POWER

A surcharge will be applied to each billing for service rendered under this Schedule to reflect the cost of power in an amount per KWH identified on Tariff Sheet titled Cost of Power Charge.

**SCHEDULE V1 - VALDEZ DISTRICT (CONT.)
RESIDENTIAL SERVICE**

T

GENERAL PROVISIONS

1. Single occupancy dwellings and/or farm uses where production is the item of income and not retail sales.
2. This Schedule shall not apply where any kind of material is handled for resale.
3. The foregoing Schedule will be applied to each meter and point of delivery, and in no event shall meter readings be combined.
4. Delivery Point - If service is furnished at secondary voltage, the delivery point shall be the metering point unless otherwise specified in the contract for service. All wiring, pole lines, and other electrical equipment on the load side of the delivery point shall be owned and maintained by the consumer.

If service is furnished at the utility's primary line voltage, the delivery point shall be the point of attachment of the utility's primary line to consumer's transformer structure unless otherwise specified in the contract for service. All wiring, pole lines, and other electrical equipment (except metering equipment) on the load side of the delivery point shall be owned and maintained by the consumer.

Sheet No. 121

SCHEDULE V2 – VALDEZ DISTRICT SMALL COMMERCIAL SERVICE

AVAILABILITY

Available to commercial consumers and three-phase farm consumers for all uses including lighting, appliances, cooking, heating, and motors, all subject to the established rules and regulations of the Cooperative covering this service. This Schedule is available only to consumers who use the Cooperative's power as the sole source of power.

TYPE OF SERVICE

Single-phase and three-phase where available at available voltages.

APPLICATION

General service for power and lighting purposes where all service taken by the consumer is supplied through one meter at one point of delivery; available phase and voltage at option.

Service under this Schedule is limited to consumers whose load requirements do not exceed 25 KVA of transformer capacity.

Consumers having their homes on the same premises with their business establishments may include service to both on the same meter, in which case all services will be billed under this schedule, using the rate below.

RATES

Customer charge per month @ \$20.00

Energy charges:

All Energy @ 6.04¢ per KWH

COST OF POWER

A surcharge will be applied to each billing for service rendered under this Schedule to reflect the cost of power in an amount per KWH as identified on Tariff Sheet titled Cost of Power Charge.

Sheet No. 123

Sheet No. 123

SCHEDULE V3 – VALDEZ DISTRICT LARGE COMMERCIAL SERVICE

AVAILABILITY

Available to consumers whose continuous 15-minute demand during any period throughout the year exceeds 50 KW but does not exceed 1500 KW and who are located on or near the Cooperative's three-phase lines for all types of usage, subject to the established rules and regulations of the Cooperative. This schedule is available only to consumers who use the Cooperative's power as the sole source of power.

TYPE OF SERVICE

Three-phase, 60 cycles, at the Cooperative's standard voltages.

RATES

Customer charge per month @ \$100.00

Demand charge per month @ \$12.00 per KW

Energy charges:

0 to 25,000 KWH per month @ 5.62¢ per KWH

Over 25,000 KWH per month @ 1.72¢ per KWH

DETERMINATION OF BILLING DEMAND

The billing demand shall be the maximum kilowatt demand established by the consumer for any period of 15 consecutive minutes during the month for which the bill is rendered as indicated or recorded by a demand meter and adjusted for power factor as provided below.

Tariff Advice No. 3

Effective: October 25, 2010

Issued by: Copper Valley Electric Association, Inc.

By: 

Title: Chief Executive Officer

**SCHEDULE V3 – VALDEZ DISTRICT (CONT.)
LARGE COMMERCIAL SERVICE**

POWER FACTOR ADJUSTMENT

The consumer agrees to maintain unity power factor as nearly as practicable. Demand charges will be adjusted for consumers with 50 kilowatts or more of measured demand to correct for average power factors lower than 90 percent and may be so adjusted for other consumers if and when the Cooperative deems necessary. Such adjustments will be made by increasing the measured demand 1 percent for each 1 percent by which the average power factor is less than 90 percent lagging.

COST OF POWER

A surcharge will be applied to each billing for service rendered under this Schedule to reflect the cost of power in an amount per KWH identified on Tariff Sheet titled Cost of Power.

GENERAL PROVISIONS

1. Delivery Point - If service is furnished at secondary voltage, the delivery point shall be the metering point unless otherwise specified in the contract for service. All wiring, pole lines, and other electrical equipment on the load side of the delivery point shall be owned and maintained by the consumer.

If service is furnished at the Cooperative's primary line voltage, the delivery point shall be the point of attachment of the Cooperative's primary line to consumer's transformer structure unless otherwise specified in the contract for service. All wiring, pole lines, and other electrical equipment (except metering equipment) on the load side of the delivery point shall be owned and maintained by the consumer.

2. Lighting - Both power and lighting shall be billed at the foregoing rate. If a separate meter is required for the lighting circuit, the registrations of the two watt-hour meters shall be added to obtain total kilowatt-hours used, and the registrations of the two demand meters shall be added to obtain the total kilowatt demand for billing purposes.

SCHEDULE V4 - VALDEZ DISTRICT INDUSTRIAL SERVICE

AVAILABILITY

Available to consumers whose continuous 15-minute demand exceeds 1500 KW during any period throughout the calendar year, and whose annual load factor meets or exceeds 85% on a calendar year basis. Facilities must be located near existing three-phase circuits and shall be primary metered. This schedule is available only to consumers who use the Cooperative's power as the sole source of power.

TYPE OF SERVICE

Three-phase, 60 cycles, at the Cooperative's standard primary voltages.

RATES

Customer charge per month @ \$100.00

Demand charge per month @ \$12.00 per KW

Energy charges:

All KWH per month @ 1.42¢ per KWH

DETERMINATION OF BILLING DEMAND

The billing demand shall be the maximum kilowatt demand established by the customer for any period of 15 consecutive minutes during the month for which the bill is rendered as indicated or recorded by a demand meter and adjusted for power factor as provided below.

POWER FACTOR ADJUSTMENT

The consumer agrees to maintain unity power factor as nearly as practicable. Demand charges will be adjusted for consumers with 50 kilowatts or more of measured demand to correct for average power factors lower than 90 percent and may be so adjusted for other consumers if and when the Cooperative deems necessary. Such adjustments will be made by increasing the measured demand 1 percent for each 1 percent by which the average power factor is less than 90 percent lagging.
